Technical Data Sheet

Kane Ace® FM-50

Acrylic Impact Modifier

Product Description
Kane Ace FM-50 is an all-acrylic polymer designed to improve the impact properties of rigid PVC formulations.

General Benefits
- Provides good impact strength retention under various weather conditions to PVC based products.
- Suitable for outdoor and durable PVC based products.

Typical Applications
PVC based products for window profile, siding, pipe, gutter and furniture sheet.

Typical Properties

Items	Properties	Measurement method
Chemical description	Acrylic polymer	—
Appearance	White Powder	Visually
Apparent Specific Gravity	0.515	JIS K7365
Volatile Matter	0.325 %	JIS K6721(105degreeC*60min)

*Note: please be aware that typical properties are approximate reference values. For guaranteed quality specifications, please contact us.

Storage, Handling and Regulatory Information
Please consult Safety Data Sheet for additional information concerning personal protective measures, safety, health and environmental information.

Shelf Life Guarantee
On condition that there is taken care about the conditions for storage(*) as these are mentioned in the Safety Data Sheet and on the packaging itself of the Kane Ace FM-50, Kane Ace FM-50 can be maintained in stock, keeping its characteristics, for a period up to one year after production date.

(*) Store in the original package. Store in cool area, do not store near heat sources. Store in dry well-ventilated area, avoid contact with moisture. Protect from light, especially from direct exposure to sunlight.

Product Packaging
Kane Ace FM-50 is supplied in 20-kg paper bags or flexible container bag.

Additional Information
For additional information or specific recommendations for your intended application, please contact us.
